

# Emmaly Fogle Digital Design Portfolio

2018 — 2025

I'm a product photographer and graphic designer, these are few of my compiled works.

# GOE skincare

GOE skin care is a all natural skincare brand. GOE wants you to give the consumer the power. Their goal is to give you the green light when purchasing their products with zero hesitation about quality or ingredient.

# Mauna Loa

A shoot for Mauna  
Loa to give their brand  
more lure.

# Summer Forward

A summer catalog for NOMADS the magazine.  
Highlighting summer camping spots right next to the water. The goal was to attract every traveler. I incorporated fun mementos like stickers into the design, something everyone can relate to.

## BEACH FRONT CAMPING

should not have to cost an arm and a leg. Thanks to the Berua of Land Managment, it doesnt have to.

# NOMADS

Issue 12 | May 2024

## \$10 beach front Properties

5 beach front camping spots  
under \$10  
GPS coordinates  
inside

# A flyer for trivia night

This flyer was created with humor in mind. I also wanted the audience to feel like they were apart of an inside joke. I used imagery and clever phrases relating to the show to convey tone of a relaxed fun evening ahead.

# Photography

My mission with a camera is to always be learning how I can be better. How I can create the images I would want to work with

# Merchandise Design

Taking logo design one step further with branded merch. I wanted this unique line of stickers to convey what it means to be apart of the California Coast while staying at the “Fort Ross Lodge”. I kept the color palette fun and the theme relatable. This design process really immersed me in the California culture, and capturing just that was the goal.
